Based on this fiscal year's purchases alone, we would save about \$30,000 on this contract. This is assuming that all the inpatient use is for Crohn's reasons and not for rheumatoid treatments. There is the alternative product now that is being marketed for rheumatoid indications. So far this year, we have treated 9 inpatients (6 UC/Crohn's, 1 RA and 2 chemo associated colitis).

How much will you be able to buy ... a years worth???...30 vials?

How do you think that this is going to affect budget?...ie...who pays for remicade?

As I understand it, we will buy 30 vials for 30 cents because this is in a pharmacy cost centre we just reduced our 2016-17 drug spend by 30K ... correct. (ie there is not a WORx end of moth correction that charges a program \$987 a dose..??)

Scott Walker
Director of Pharmacy
Sunnybrook Health Sciences Centre

Subject: Remicade bribe

Scott,

We received the attached notice from Janssen offering Remicade at \$0.01 per 100 mg vial

versus the \$987.56 it currently costs. This is an inpatient use deal only and would have to be purchased separately from any drug purchased for APP.

Remicade inpatient use has been a bit erratic this year has seen a surge. We would have saved \$29,000 this year had we been on the contract.

2015-16	30 vials	to date
2014-15	12 vials	
2013-14	0 vials	
2012-13	6 vials	
2011-12	16 vials

Date: Monday, May 30, 2016 12:13:00 PM

MLK,

So all inpatient use of infliximab is available at \$0.01 per vial regardless of indication?
