The Naval Department is making hurried preparations to man the Niobe and put her in readiness for active service. The presence of two German cruisers somewhere in the North Atlantic is causing considerable uneasiness, but the Niobe carries a heavier armament than either of the German vessels. Nothing is given out as to the whereabouts of British war vessels on this side of the Atlantic, but it is known that there are several, and that under present circumstances there need be little to fear from any ships of the enemy, unless other cruisers make their way across the ocean from the North Sea, with a view to sporadic raids on Canadian ports and shipping.

The grize for the oldest lady on the ground had only one claimant. It was won by a lady who admitted she was sixty next March. She deserved the prize for her veracity and courage, and as she received the handsome brooch she remarked that it was worth something to be old. Her name is Mrs. Margaret Spence, and she left Edinburgh only two years ago.

The Militia Department was again inundated to-day with another flood of offers to enlist, coming from all parts of the Dominion. Almost all the regiments and every branch of the service, covering every Province, are represented. Apparently the whole militia service of Canada is ready to respond at once to the call to arms. Several members and ex-members of Parliament have sent in telegrams of-fering themselves for active service or volunteering to raise men. A score of young women have telegraphed asking to be sent as Red Cross nurses. The Boy Scouts and Cadet Corps are not behind the grown-ups in offering to tight for the tlag.
